

FIRST CHOICE WORLDWIDE

BRAKE AND CLUTCH COMPONENTS FROM THE OE MANUFACTURER

THE FIRST CHOICE OF AUTOMAKERS IS FTE, A VALEO BRAND. WHAT'S YOURS?

To become a global market leader you need excellent customer relationships, built on sustainable performance. With our hydraulic clutch actuation systems, we are proud to have accomplished this.

German engineering has made us a preferred development partner to the international automotive industry, with our own R&D department and test lab. An expert in brake

and clutch hydraulics, we develop, among other things, our own rubber formulations to precisely meet the technical specifications and requirements of the respective vehicle components.

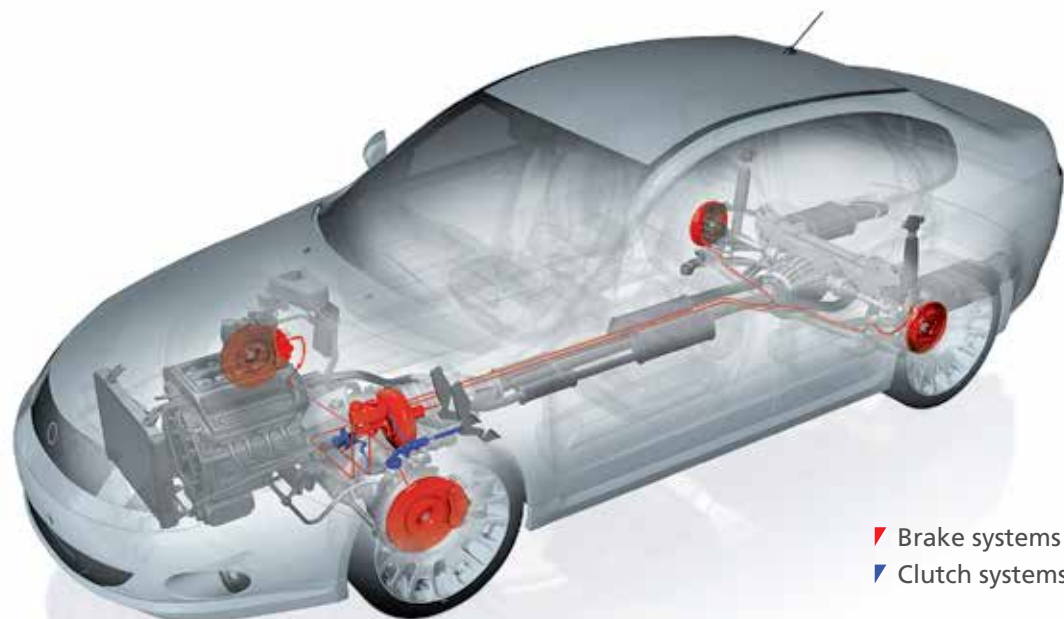

Our range of spare parts for passenger cars comprises more than 7,000 brake and clutch components for nearly 28,000 vehicle models – all of them in best OEM quality.

Consequently, in the field of clutch hydraulics we cover 95% of all European vehicle types, with a steadily growing product portfolio. For newly launched models, we offer the eligible spare parts within just twelve months.

Knowing that you will only be satisfied when your own customers are, we have created a service offering to fulfill all requirements of the spare parts market: from competent

advice to the latest information about our product innovations, portfolio and availability via TecCom to technical and sales trainings to an expert hotline and 24 – 48 hours delivery.

Make the automakers' first choice your choice and increase your customer satisfaction with our spare parts.

SUSTAINABLE VALUE ADDED

As a leading original equipment manufacturer, we constantly strive for innovations to improve our products – not least to the benefit of our environment. Accordingly, we offer remanufactured calipers, refurbished in our own facility – to the very high quality you may expect from a leading OE manufacturer. Guaranteed. An economic alternative, they enable state-of-the-art repair in line with the vehicle's current value. All in all, this makes for sustainable value added that adds up: for you, for your customers and for our environment.
